Claire Perry Digs for Data on Ambulance Response Times

Claire Perry, MP for the Devizes Constituency, has asked the Great Western Ambulance Service (GWAS) for detailed information on ambulance response times for the different parts of the Devizes Constituency.

Commenting, Claire said:

“Many of my constituents, especially those living in the south-east part of the Constituency in Tidworth and Ludgershall, are concerned that ambulance response times to these areas are slower than the norm. We saw the impact of one such incident in December which was followed by the tragic death of Mrs. Doreen Wignall. I have asked the GWAS for response times by individual postcodes so that we can fully understand the situation and get on top of any systematic problems. This will also be the first time we have been able to see this data”.

Notes

- Claire Perry spoke with Ken Wenman, interim Chief Executive of GWAS last week about ambulance response times.
